§ 24.4 Investment limits.

(a) *Limits on aggregate outstanding investments.* A national bank's aggregate outstanding investments under this part may not exceed 5 percent of its capital and surplus, unless the bank is at least adequately capitalized and the OCC determines, by written approval of the bank's proposed investment pursuant to § 24.5(b), that a higher amount will pose no significant risk to the deposit insurance fund. In no case may a bank's aggregate outstanding investments under this part exceed 10 percent of its capital and surplus. When calculating the aggregate amount of its aggregate outstanding investments under this part, a national bank should follow generally accepted accounting principles, unless otherwise directed or permitted in writing by the OCC for prudential or safety and soundness reasons.
